Selah, WA—The American Health Care Association and National Center for Assisted Living (AHCA/NCAL) has announced that SELAH CARE & REHABILITATION has earned a 2014 Bronze Commitment to Quality Award. The award honors skilled nursing centers across the country who have demonstrated their commitment to improving quality care for seniors and individuals with disabilities.

The AHCA/NCAL National Quality Award Program is based on the same core values and criteria as the well-known Baldrige Performance Excellence Program. The Quality Award program has three progressive levels. At each step, trained examiners provide feedback on opportunities for improvement to support continuous learning.

Facilities must achieve an award at each level to progress on to the next.

Carol Hyatt, owner and administrator of Selah Care and Rehabilitation states “I have a team of professional care givers and support staff who believe every resident who stays with us deserves the highest quality of care. Receiving the Bronze Award reflects this passion.” Ms. Hyatt has over 40 years in long term care.

Rated a Four Star facility by The National Center for Medicare and Medicaid Services (CMS), SELAH CARE & REHABILITATION has provided skilled nursing and post-op rehabilitation care in the Yakima Valley for over 40 years. The facility has also received three perfect annual state inspections. SELAH CARE is one of three locally owned Hyatt Family Facilities; the others are LandMark Care & Rehabilitation and Willow Springs Care & Rehabilitation. Willow Springs is currently in the application process for a Silver Award.
